Skills & areas of interest

- Computer Science — Teaching, front-end web development, HTML (Twitter Bootstrap), CSS, JavaScript, Linux, Node.js, LaTeX, Bash

- Biology, Chemistry, Physics

- Classics — Latin and Roman Culture

Projects

- Maryland Junior Classical League Website (won 4th place in the National JCL website competition)

Education

2016 – Present	**Swarthmore College**
2012 – 2016	**Dulaney High School**

- Relevant Courses AP Physics 1 & 2, AP Physics C, AP Biology, AP Chemistry, AP English Lang/Lit and Composition, AP Economics, AP World History/U.S. History, AP Calculus AB/BC
- GPA – 3.97
- QPA – 5.607

Work Experience

June 2016 – July 2016	**New Ridge Technologies** *Web Developer*

- Designed, developed, and implemented a custom WordPress site to my client's specifications

June 2014 – August 2014	**Johns Hopkins Center for Computational Biology** *Bioinformatics Intern*

- One of three students selected nationally to research bioinformatics and computational genomics. I presented my work on pine chloroplasts

High School Experience

2013 – June 2016	**Dulaney Programming Club** *Co-Founder and President*

- I wanted to provide a collaborative space, outside the classroom, for students to advance their coding skills. I have tutored all levels of skill – from absolute beginners to advanced.

2012 – 2016	**Dulaney Peer Tutoring** *Student Manager*

- I tutored in subjects varying from AP Chemistry to English. I was also selected to become the student manager and developed an automated system to match students and tutors.
